SISTEMI VERNICIANTI PER L'EDILIZIA

**High coverage,
excellent whiteness,
high level of comfort indoor.**

Breathable water-based paint for indoor
with low emission of volatile compounds.

ARUM it realizes finishes with matt outward, with particular porosity that ensures an excellent water vapor permeability and a low dirt retention.

Easy to apply, anti-drip, good spreading, ARUM has an excellent coverage combined with high whiteness. Suitable for applications on surfaces with different absorption.

New formulation technology with low content of volatile compounds, formaldehyde-free and from added plasticizers, ARUM offers high comfort and healthy living indoors.

Indicative spreading rate: 8-10 m²/l per coat.

Number of coats: 2.

Tools: brush, roller, spray and airless gun.

Dilution: by brush at 40-45% with water; by roll at 20-25%.

Available in white, 14 and 5 liters sizes, tinted with Marcromie tinting system at pastel shade and medium intensity.
